A new survey from Gallop has some people sounding the alarm on millennials: they say they're failing at relationships. According to the survey of 1,000 adults ages 18 to 34 in the U.S. between November and December of last year, 44 percent said that the most common reason they got a girlfriend or boyfriend is because their friends asked them to — not because they asked themselves. Interestingly, people in this group (44 percent) are more likely to get friends to introduce them to 50b96ab0b6
